Dear colleagues,

Laser dentistry has long ago passed its years of baby steps and we are living the era that laser is already part of modern dentistry modus alongside with other technological innovations and digital technologies. The biggest and oldest scientific community that has united and served laser dentists since 1988 is undoubtedly the World Federation for Laser Dentistry (WFLD). In the heart of this family, the European Division (ED) has a significant part throughout the years. The 6th WFLD European Division Congress is here and the beautiful city of Thessaloniki is waiting to host us in the country of sunlight, Greece.

We are more than delighted to discover that all forces of laser dentistry have contributed to this important scientific event, emphasising the fact that dentists from around the world are eager to participate and discover the latest research and clinical projects from the most prominent opinion leaders. I am feeling also honoured that for the first time all “major” companies in dental laser and restorative field have sponsored this event and their presence will give us the opportunity to have a multicolour “palette” of wavelengths and laser devices in the congress exhibition.

23 sponsors, 25 invited speakers, 70 oral presentations, 30 e-posters, a parallel aesthetic and CAD/CAM congress on Saturday and eight free-of-charge workshops are ensuring a successful and informative meeting. Moreover, the social events such as the Welcome Cocktail on the exhibition area and the Gala Dinner will give you the opportunity to meet and reunite with colleagues from all over the world.

The 6th European Division Congress of the WFLD is opening its doors and welcomes you in the Makedonia Palace hotel of Thessaloniki on 22 and 23 September. You are cordially invited to join us and indulge in two days of science and socialising in the laser dental family.

Let’s meet in Thessaloniki! Let’s bring laser light to sunlight!

Sincerely,

Dr Dimitris Strakas
Chairman of WFLD-ED
