Stabilized Stannous Fluoride dentifrices are toothpastes of choice: Middle East dental consensus

By Dental Tribune MEA / CAPpmea

DUBAI, UAE: On 03-05 November 2017, a selected panel of ME elite dental academicians gathered for a two-day scientific consensus to discuss recommendations for best choice of toothpaste. This unique assembly took place at The Address Hotel Dubai Marina, UAE. The results were presented live on stage at the 9th Dental Facial Cosmetics International Conference which took place at KH in Dubai Festival City on 03-05 November 2017.

The consensus was led by Professor Hien Chi Ngo, Dean of College of Dental Medicine of the University of Sharjah and Dr. Elias Berdouses, Board Member of Emirates Pediatric Dental Club. The consensus was achieved by the Delphi methodology (A structured survey approach conducted in multiple rounds of questionnaires and answers.) It is re-conducted in multiple rounds of inquiry. The consensus moderators. Left: Prof. Hien Chi Ngo, Right: Dr. Elias Berdouses. The consensus was achieved by the Delphi methodology (A structured survey approach conducted in multiple rounds of questionnaires and answers.)

Over the two days, the consensus culminated in the above recommendations which are agreed and signed off by expert panel: Prof. Hien Chi Ngo – Moderator, Dean of College of Dental Medicine, University of Sharjah, UAE.
