Distributor: DME
Product Name: Initial™ LiSi Press
Description: The unique pressable Lithium Disilicate Glass Ceramic (GC Initial LliSi Press) is the first lithium disilicate ceramic ingot with High Density Micro-crystal (HDM), a technology unique to GC. It uses equally dispersed lithium disilicate micro-crystals to fill the entire glass matrix rather than using traditional larger size crystals that do not take full advantage of the matrix structure. Ensuring the product remains super stable, without distortion or drop in value, after multiple firings. The result is the ultimate combination of strength and aesthetics, making GC Initial LiSi Press perfectly suit-

Distributor: Scorpios International LLC
Product Name: Ceramage (Zirconium Silicate Indirect Restorative System)
Description: Superior Esthetics - Satisfies the most demanding clinicians and parents Science Based Design - NuSmile Try-In crowns used for trial fitting and preparation refinement save critical chair time by eliminating extra steps and also ensure cementation success Quick and Easy to Use - Narrow 1st primary molars for easier placement in crowded cases. NuSmile ZR also provides ideal thickness for strength and minimum tooth reduction Nature Replating - Two natural pedo shades for more precise color matching and in-

Distributor: Scorpios International LLC
Product Name: Ceramage (Zirconium Silicate Indirect Restorative System)
Description: Superior esthetics with easy reproduction of natural tooth color Excellent flexural & compressive strength Long-term color stability Ideal viscosity with optimal handling characteristics Easy to sculpt, non-sticky & easy to separate from saliva Remarkable abrasion resistance specially on opposing dentition High elasticity suitable for posterior restorations Superior polish & high plaque resistance Extensive range of translucent incisal, effect modifiers, gum & whitening shades Natural Fluorescence & Opalescent Simple Polymerization system with a fast application technique
