Center for Advanced Professional Practices successfully expands to Asia-Pacific Region

Center for Advanced Professional Practices (CAPP), known for its 6 CAD/CAM & Computerized Dentistry International Conferences in Dubai and 3 Dental Facial Cosmeticon International Conferences at the famous Jumeirah Beach Hotel Dubai, has recently expanded to the Asia-Pacific Region with its first event beginning October 2012.

CAPP Asia - the recently opened branch in Singapore, organized the 1st Asia-Pacific, 7th CAD/CAM & Computerized Dentistry International Conference successfully at the Marina Bay Sands Convention & Exhibition Center in Singapore on 6-7 October 2012. The Conference brought together more than 521 Dental Professionals from 44 countries, all treated to an exciting weekend packed with lectures on the latest developments, continuing the reputation as the industry’s leading unique event entirely focused on the A-Z process of Digital Dentistry. The event was proudly supported by the Singapore Dental Association, the accrediting body of the scientific programme. Figures are based on the event post-show report.

The event was opened by Singapore’s Chief Dental Officer and former president of the Singapore Dental Association, Prof. Patrick S.K. Tseng. The congress included presentations on hybrid dental materials and the aesthetic limitations of CAD/CAM, among other topics. A highlight was the One-visit chairside dentistry Theatre Presentation by internationally acclaimed presenters Dr. Michael Dieter and Jörg Vogt from Germany – a concept started by CAPP 3 years ago in Dubai.

The 1st Asia-Pacific congress also witnessed The Dental technicians’ Parallel Session, introduced at CAPP’s last congress in May 2012 which was included alongside the main programme. The parallel session covered various aspects of using digital dentistry in the lab environment, offering attendees contemporary, technology-focused education.

The event received sponsorships by major market players, including Sirona Dental Systems, Ivoclar Vivadent, AmannGirrbach, Wieland, Easy Shape—Roland, 3M ESPE, Objet, ClearPath and VITA Zahnfabrik, which gave attendees the opportunity to get hands-on with the latest products and treatment solutions in the field.

CAPP has been organizing congresses for dental CAD/CAM and Computerized Dentistry in Dubai since 2006. Its latest event was attended by over 800 dental professionals from 24 countries, according to its figures. The congress in Singapore was the first time that the company held this kind of event outside The United Arab Emirates.

“It’s a great feeling actually to be here at the CAD/CAM Congress here in Singapore, everyone is excited to learn more about the CAD/CAM market here in the area”.
– Dr. Khaled Abouseada, Saudi Arabia

“Very positive, I really do like this event. I can only hope this event will be following up next year, same time, same place. think your reputation is following you”.
– Peter Roessling, Germany

“You have done fantastic work. Great! Congratulations, fantastic organization and high class. To see you in Singapore I could feel like I am at home. Wherever you go with your conference it is always a big success! Thank you for putting all professionals into your conferences.”.
– Bruno Cygiewicz, Dubai.

"Current Concepts in American Dentistry"

Short-Term Advanced Education Courses for Dentists Practicing Outside The United States

By Dental Tribune Middle East & Africa

The "Current Concepts in American Dentistry" program was established at New York University College of Dentistry in 1981. This popular program now has over 3,500 graduates from 36 countries. These customized educational opportunities are designed for international dental groups to provide a deeper knowledge and understanding of specific areas of dentistry. The teaching staff includes NYU College of Dentistry faculty, alumni and outstanding educators from other institutions and private practice. Program topics and content are determined by the special needs of the group in consultation with the Assistant Dean for Continuing Education. Attendance in New York City is mandatory in English. To maximize the learning experience, sessions in New York City are limited to a minimum of 25 and a maximum of 50 participants. Individual dentists not part of a group may join an existing group on a space available basis and with prior approval of the Assistant Dean for Continuing Education. Attendance in New York City is mandatory in fulfilling the program requirements.

Five sessions of which three weeks of attendance must be at New York University College of Dentistry in New York City. Also, two additional sessions must be completed either at New York University College of Dentistry or at any of our international programs scheduled at locations throughout the world. Participants are encouraged to complete the program in a timely fashion recommended not to exceed two years.

During the final week at New York University College of Dentistry, participants are required to document and formally present two clinical cases performed and completed in their private practices. This final written report with the two clinical cases must be referenced with appropriate scientific literature. Recommended report length is 10-15 pages. This report may be in English or another language if English is not the language selected a one-page summary in English must be included.

Upon successful completion of all program requirements, a certificate of achievement will be awarded by NYU Linhart Continuing Dental Education Program. The final decision on meeting all requirements is the responsibility of the Assistant Dean for Continuing Education.

Program Accredited by ADA CERP for 201 CME credits. 20 CME for each participation. 10 CME for presentation. 10 CME at NYU and 40 hours (15-90) at CME Total. 30 CME Total (30 CME per day 1st session - 6th session). 201 CME Total.

CAPP and New York College of Dentistry start Middle East Program 2012 - 2013

By Dental Tribune Middle East & Africa

BU DHABI, UAE: “Current concept in American Dentistry” course kicked off together with official partner with Center for Advanced Professional Practices (CAPP) successfully on October 11, 2012 in UAE. 22 Dental Specialist from 8 countries attend for the session in Abu Dhabi, the first from the total 5 sessions. This international dental program is specially designs to meet the educational needs of dental group to “learn from the experts”. The program has total of 5 sessions – 2 in Middle East and 3 in New York City - NYU College of Dentistry.

Through informative and stimulating lectures, interactive group discussions, treatment planning sessions, “live” patient demonstrations and participant written reports and clinical case requirements, this practical and innovative learning approach will expand your horizons and increase your confidence in pursuing clinical excellence.

Dr. Dobrina Mollova
Managing Director
info@cappmea.com
Center for Advanced Professional Practices

“We have to be sure that the technology that’s developed is useful, and then if you apply that technology it should not be via a commercial company, it should be via educators that need that to work under certain set of circumstances.”

“We try to use the knowledge that we have to share with the rest of the world to make dentistry easier and more predictable and to make dentists have a more enjoyable time in their private practice”

H. Kendall Beaham
Assistant Dean
Linhart Continuing Dental Education Program
New York University College of Dentistry

“It’s a great course, we enjoyed every moment, it’s very nice and we recommend everyone should come to this course”

“We really believe that dental knowledge belongs to the world”

“This is a great atmosphere for learning, and this is the boom circuit for people in this industry to start understanding and learning this kind of dentistry so they can bring it to their patients”

“This has been a great group, they have a wide range of information and knowledge and skills”

“New York City - NYU College of Dentistry

“I strongly would recommend coming back here, and I’m very excited to come back again too”
