Vintage LD…
The Better Lithium Disilicate

By SHOFU

Vintage LD is an innovative lithium disilicate system from Shofu that offers you greater flexibility, more treatment options and aesthetic versatility for a variety of all-ceramic anterior and posterior restorations. A combination of three perfectly compatible components comprising of high strength lithium disilicate glass ceramic ingots in varying levels of translucency, a naturally shaded, opalescent silicate based veneering porcelain and a comprehensive range of low fusing fluorescent stains offers the choice of pressing, staining and highly aesthetic cut back or full build-up layering techniques.

Designed to fulfill the demanding aesthetic requisites of discerning dental professionals, Vintage LD exhibits outstanding shade stability even with multiple firings with virtually non-existent reaction layer for a faster, simpler and error-free fabrication cycle. Available in sets or as refills to meet the individual needs of your lab.

Beautiful Bulk
A Smart approach to smarter dentistry

By SHOFU

Reduce chair time and your inventory too… with Beautiful BULK, the new generation bulk fill resin restorative developed for easier, faster and predictable posterior restoration. Formulated in 2 discrete viscosities to fulfill individual preferences, Beautiful BULK Flow, a flowable variant is ideal for dentin replacement and a sculptable Beautiful BULK restorative to restore to full contour. Excellent chameleon effect is achieved with just two shades (Restorative Universal and A shade) of Beautiful BULK restorative that blends in imperceptibly with surrounding tooth structure.

Developed with S-PRG filler technology, Beautiful BULKomer resins come with additional anti-plaque benefits and sustained fluoride release and recharge to protect against recurrent caries. Exceptionally high filler load with unique filler resin structure maximizes light penetration for optimum cure (up to 4 mm) while lowering polymerization shrinkage stress.

There’s a lot of white at play in clinics. But it seems like we still can’t have enough. So what is with the color white I want to know?

That previous line almost plays out in my head like lyrics to a song. But that’s what I am asking Ranjit Prasad, the Principal Architect of Splyce. We know the obvious, white is the embodiment of cleanliness, of health and hygiene, the spick-and-span-germ-free hue, the sign that there is nothing sinister, however small in size, lurking. An RGB version of what you see is what you really get.

White has always been symbolic of purity and of freshness but Ranjit will tell you that despite white being a de facto color of use in the health-care industry, white makes a massive design statement and its use has desired effects. White has the ability to expand the sense of space, and alter the experience of shapes. Though easy on the eye, it still needs utmost care, and this care is transformed into the assimilation of attributes of luxury. White is also quite relaxing and nourishing.

“Choosing the right white in itself is a job. There are unbelievable choices of white available to pick from...”
