New A-dec 400 highlighted by radius positioning and style

By A-dec

A-dec 400 combines versatility with elegance. Emphasizing flexibility, satisfaction with features that make it a versatile investment.4 The new A-dec 400 is also designed with well-placed mounting locations for the delivery system and support-side modules. Doctors are able to Radius-mount a monitor, light, control, cuspidor, and assistant’s arm. The front-mounting location offers flexibility for limited space, while also providing excellent ergonomics for operators who prefer side delivery.

Aside from mounting locations, doctors are able to choose from A-dec's three dental light offerings and specially factory-installed ancillaries that can be integrated into the delivery system and pre-wired for the touchpad controls.

The new chair exceeds industry standards for strength, rated for a 400-lb. maximum patient load. The new armrest design also gives patients a particularly sturdy and secure grab point.

For customizable styling, doctors can choose between sleek, seamless upholstery and plush, sewn upholstery. A-dec’s wide range of designer color options allows each team an option for a truly am-bidextrous configuration to accommodate doctor preferences. The Radius delivery and support modules quickly and easily rotate around the chair for complete left/right compatibility.

To elevate treatment room proficiency and enhance doctor access to the patient, A-dec 400 optimizes ergonomics with an ultra-thin backrest and positioning of controls and ancillaries, while eliminating unnecessary movement. “Our approach is to help doctors maximize productivity without sacrificing patient comfort,” says A-dec Project Chief Tim McLesky. “With A-dec 400, doctors get exceptional aesthetics with features that make it a
