7th Dental-Facial Cosmetic Int’l Conference – part of Dubai Dental Week

By Dental Tribune MEA | CAPPmea

With the 21st Century being a time where science and trade go hand in hand, it is of utmost importance to stay updated in our professional lives. With the internet opening doors to information to everyone, the dental patient has unrestricted access to global standards of dental care. The thought of success in Dentistry today is underlined by innovation and cutting edge technology as well as evidence-based scientific improvements. It is a fact that the dental industry has seen a shift from being trade to being evolved as a scientific trade. With this being said, 7th Dental-Facial Cosmetic International Conference in Dubai has become the region’s trendsetter when it comes to showcasing the latest evidence based scientific cases through Centre for Advanced Professional Practices’ (CAPPmea) accredited Continuing Dental Education programs alongside modern day innovations and cutting edge technologies shown by the dental manufacturers.

In the 10th year Anniversary of CAPPmea, 7th DFCIC is proud to offer an expanded partnership with eminent strategic partners such Emirates Dental Society, Saudi Dental Society, Lebanon Dental Association as well as American Academy of Implant Dentistry, Inman Aligner Academy and the International College of Dentists who all hold their annual events as part of the Dubai Dental Week.

The organizers have once again planned an unparalleled Continuing Dental Education program for November 2015. Featuring some of the most prolific educators in the field of Dentistry, delegates will have a choice of a full-day Seminar on Alignment, Bonding, Bleaching and more (Inman Aligner Symposium - 12th November), two day Scientific Conference on the latest in Dental Facial Aesthetics (7th DFCIC joint event with AAID 15-14 November), half-day seminar (ICD

7th Dental Facial Cosmetic International Conference
11-15 November 2015 • Jumeirah Beach Hotel, Dubai, UAE

By Dr. James Russell, UK

Iman Aligner and Intelli-
sion Systems are pleased to announce our Annual
Symposium on 12 November
2015. Following a superb
meeting in Copenhagen our 2015 venue is DUBAI! We are pleased to announce our 2015 venue in a joint meeting with the 7th Dental - Facial Cosmetic
Congress (DFCIC) organized by CAPPmea so those wanting to combine some winter sun with more super
CPD can combine both meetings.

We have a world renowned line-
up of speakers including Dr.
Bill Omer, UK (Past President
British Academy Cosmetic Den-
tistry) who will start the event on the Current Trends in Aesthetic Orthodontics! Incep-
tious Occlusal Dentistry – The
new path for destiny. Further presentations will cover
GDP Orthodontic pre-alignment
posteriors) and Dr. Mario Besek
of Switzerland who will demon-
strate Composers® The Next
Generation of a Direct Veneer-
system. Day 2 highlights include Prof. Paul Tipton known for
the famous Tipton Training
courses for dental professional
in the UK who will speak on
The Role of Vertical Dimen-
sion of Facial Aesthetics. AIDI
speakers Dr. James Lozada,
USA, Dr. Cheryl Pearson, USA,
Dr. Stuart-Orton Jones, UK and
Dr. Roderick Stewart, Canada
will cover topics such as CEREC
and Implants, Evidence Based
Implant Dentistry, Full Arch
Implant Supported Strategies and
Treatment of Inadequate Ridge Height using Tatum Ridge Repo-
sitioning.

CAPPmea is an ADA C.E.R.P.
Recognized Provider of Continuing
Education and the Dubai Dental
week has additional ac-
creditations such as, oral and max-
facial surgeons, prosthodontists,
endodontists, Restorative Dentists and other interested in the field of implant
dentistry.

The American Academy of Im-
plant Dentistry (AAID) stands for
excellence in education, scientific
research and patient care. Members who demonstrate the
highest standards in implantol-
ogy find the AAID to be the or-
ganization which supports their
clinical and professional interests, as well as recognition for their achievements. The Academy’s mission is simple: to advance the science and practice of implant
dentistry through education, re-
search support and to serve as
the credentialing standard for
implant dentistry for the ben-
efit of mankind. The Academy
provides bona fide credential-
ing in implant dentistry through the Associate Fellow and Fellow
memberships examinations. The
Associate Fellow and Fellow
credentials are recognized by
numerous state boards.

I hope to personally greet you at the conference and welcome you to be part of our Interna-
tional Community. You will find an atmosphere of camaraderie, warmth and friendliness that will entice you to be there.
Middle East region providing a total of 55 CME credit points to international delegates throughout a series of scientific sessions. The election will take place concurrently with the 7th Dental Facial Cosmetic International Conference to be held at the Jumeirah Beach Hotel, Dubai, UAE. The Emirates Dental Society and CAPPmea have enjoyed a strong collaborative relationship over the past 10 years and holding the Dental Society General Election in conjunction with CAPP is an example of the strong relationship between the two institutions. All members of EDS are invited to attend this important election scheduled on 15th of November at 18:00 in order to support the EDS for the better of dentistry of the UAE.

Throughout the period of Dr. Aisha Sultan as the President of the EDS, one of the most memorable achievements was her election as the President of the Asia Pacific Dental Federation for the period 2014-2015 and to successfully host the Asia Pacific Dental Conference in Dubai for the first time outside of Asia and in the Middle East. It is important to continue the strong progress and evolution of the dental profession in the United Arab Emirates.

A day out for the Dental Hygienist – 14 November 2015

By Dental Tribune MEA/CAPPmea

With an increase focus on the Dental Hygienist profession, clinics in the Middle East are becoming more and more aware of the importance of a complete dental team including the Dental Hygienist role. Following the previous two successful editions, 3rd Dental Hygienist Day will include hot topic presentations on oral care, prevention, evidence-based dentistry, oral prophylaxis, early childhood caries prevention, how diets effect oral health, periodontal disease, diabetes, magnification and ergonomics as well as probiotics from an oral and dental perspective. International speakers will give their best interpretations of what is best for the Dental Hygienist profession. The Pre-Dental Hygienist Day hands-on course (15 November) will focus on Individually Trained Oral Prophylaxis - ITOP, where delegates will learn about Biofilm characteristics, failures in existing oral prophylaxis, technique and tools selection and much more. The full day hands-on course will be given by Dr. Franka Baranovic-Huber from Switzerland. A further Periodontal Instrumentation hands-on course (14 November) will be provided by Mary Rose Pincelli Boplime, Italy on miniaturized instruments in non-surgical periodontal therapy and further how polishing will brighten the smile.

The 3rd Dental Hygienist Day will further host a dedicated exhibition featuring sponsors EMS – Electro Medical Systems, Oral-B, Philips Sonicaire, Coxwell, Hu-Friedy, Curaden and KEERR.

25th Annual Meeting of The Intl College of Dentists

By Dental Tribune MEA/CAPPmea

The International College of Dentists (ICD) is the oldest and largest international honor society for dentists in the world. Established in 1928, the College has over 12,000 members in 122 countries, who have been awarded the prestigious title of Fellow in the ICD. The Middle-East section received its charter as an autonomous section in 1987 and is divided in 2 districts that govern 11 countries in the Middle East. The event will take place on 14 November at Jumeirah Beach Hotel and will be sponsored by Sirona and hosted by CAPPmea. This will mark the 25th milestone Annual Meeting of the ICD with its topic focusing on “Achieving Optimum Esthetics”. The event will feature speakers Prof. Richard Simonson, USA, Dr. Munir Silwadi, UAE, Dr. Ali Al-Eihatib, Dr. Ninette Banday, Dr. Nadim Wadi, UAE, Dr. Ali Al-Ehaideb, President of the ICD with its topic focus on the Dental Hygienist profession. Clinics in the Middle East are becoming more and more aware of the importance of a complete dental team including the Dental Hygienist role. Following the previous two successful editions, 3rd Dental Hygienist Day will include hot topic presentations on oral care, prevention, evidence-based dentistry, oral prophylaxis, early childhood caries prevention, how diets effect oral health, periodontal disease, diabetes, magnification and ergonomics as well as probiotics from an oral and dental perspective.
